Brief description of job to be performed:

Electrical installation must comply with State Building Code [NEC 2017]

Installation of underground electrical conduits must adhere to the regulations and by-laws of the **Rye Water District or Aquarian Water**. These regulations prohibit placing electrical services in same trench and "*require a minimum distance of six feet from all water mains, service lines, and curb valves*". If the installation will cross, or be closer than six feet, you must obtain permission from the specific water purveyor to do so.

In signing this application, you agree to the following:

The Town of Rye and its employees have the right to enter this property to perform any required inspections. It's the owners and owners' representatives' responsibility to comply with all local, state and federal regulations, codes, and ordinances.

While the Town of Rye and its employees do plan review and inspections, nothing relieves the owner from this responsibility. If signed by someone other than the owner it is understood that the owner is still responsible for complying with all local, state, and federal regulations, codes, and ordinances.
